PHARMACY ONESOURCE HOSTS THE #1 CUSTOMIZABLE CLINICAL DOCUMENTATION AND REPORTING TOOL FOR HOSPITAL PHARMACIES AND HEALTH SYSTEMS.

Pharmacists document and monitor their clinical interventions, medication errors, and adverse drug reactions quickly and easily via the web. Pharmacy managers run detailed reports right off the web to identify, among other things, trends in intervention acceptance, time spent doing clinical activities, and costs avoided. Quite simply, Pharmacy OneSource’s documentation tool provides pharmacy managers with key financial data to quantify and to improve their clinical programs and staff.

Features:

- Email notification for instant alert of interventions, adverse drug reactions and medication errors
- ADT patient interface available
- Shared follow up for ongoing monitoring of patients’ clinical events
- Real-time management reporting and trending – graphical, tabular and exportable
